

Anchorsholme Liberal Democrats 6 Point plan for reform

1. Reduce the number of Councillors, introduce elections every two years and return to democratic decision making by Councillors.
2. Review the effectiveness of the Council delivery of its services, in order to ensure the most cost efficient delivery of services to the Council Tax payers, including re-examine if the delivery of Council services would be more efficient on a Fylde Coast basis.
3. To carry out a business and parking survey of the Town Centre and ensure that any new projects do not cause major disruption to the town again, and ensure that empty business plots and buildings are brought back into use as quickly as possible.
4. Improving delivery of services to the Residential Neighbourhoods, Parks and Schools. Including keeping the town clear of litter and dog fouling in the streets by bringing back Park Keepers with the power to issue tickets to offenders.
5. We will insist that Blackpool Council gets it's head out of the clouds and gets back to basics—like looking after our roads and pavements, ensuring the streets are cleaned properly and rubbish is removed promptly and efficiently.
6. Jon and Gill are the ONLY candidates in Anchorsholme that can vote how they want! They do not have to vote how their leader tells them unlike the Tory and Socialist candidates.

A real alternative for Blackpool
