## Lytham Road New Health Centre

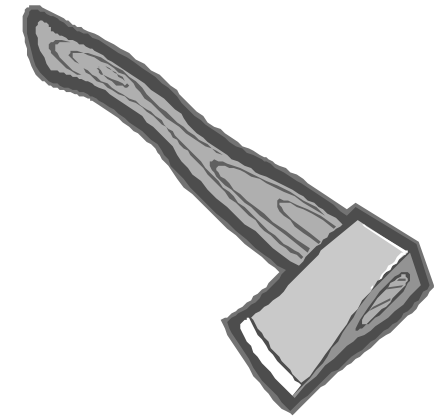

Parking is a problem in most of the ward as pressure comes from the Airport, the Business Park, the Highfield Road shops, Visitor parking, etc. etc.

The new Health Centre on Lytham Road is planned to be open next May. While we all look forward to the new facilities, many residents are concerned that this will add to the parking problems in the area.

Your local Councillors are continuing to press for more parking to be made available at the new centre, for both visitors and staff.

## Blackpool Council Budget slashed

Blackpool ruling Conservatives presented to the Council the biggest budget in the town's history with a massive £500 million. (one-half a billion pounds) of spending in March 2010.

Already they have had to sack over 100 workers, with more to go next year.

Childrens' Services want to spend £67,000 on consultants on how to get rid of more staff.

This was despite warnings from your local Councillors that the budget was too heavily dependent on Government funding.
